

Press Release

M I G Investments Beefs Up Research Team

June 8th, 2009. Neuchatel-based, leading Swiss FX broker, M I G Investments appoints Howard Friend as M I G Research Department Chief Technical Analyst.

Recruited out of London, Howard Friend complements the M I G Research Department bringing a wealth of financial market experience to the table. He initially spent 5 years as a Sales/Trader for a Japanese trading firm followed by a short spell at Reuters as a Client Training Executive. He then moved into his specialized area of Technical Analysis where he has undertaken numerous advisory and trading roles over the past 15 years. He has designed and profitably traded systems for use in day and swing trading, is a member of the Market Technician's Association and holds the Chartered Market Technicians designation. He has appeared regularly on financial TV networks as a market commentator. Howard's appointment is evidence of M I G Investments' commitment to offer clients choice financial services and a world-class research resource.

About M I G Investments

M I G Investments is a Swiss FX broker, based in Neuchâtel, Switzerland, providing unique and individualized services to FX traders worldwide, catering to private and institutional clients. M I G Investments aims to provide the optimal trading environment by offering clients the best trading conditions and trading technology. The company is ISO certified for Quality Management and Information Security Standards. M I G Investments is a proud sponsor of UNICEF, supporting the plight of children worldwide, and recently signed a three-year contract as Official Team Partner with Formula One team, Brawn GP. The company submitted its application for a Swiss Banking license in December 2008.
